My first contact with programming was in 2018, I started my first codes in JavaScript and since then I have improving myself to deliver the best solutions. Knowledgeable in JavaScript, ReactJs I have developed websites and web applications. I'm self-taught and willing to learn new things.

Experiences

Using ReactJs, styled-components, typescript and NextJs I developed the Moveit, an application that reconcilies study with rest time using the polmodoro technique.

I developed the layout of the dtMoney, an application made in ReactJs and typescript that manages income and expenses.

I replicated the spotify page layout in html, css and JavaScript.
